

Six Reasons Why The Best Use Payapps

1 Saving Your Team Time

Reduce payment claim approval time by up to 50% and minimise wasted time on chasing or updating approval status.

2 Increasing Project Visibility

Real-time tracking of progress claims, variations, and retention with optional integration to ERP or accounting software.

3 Improving Compliance

Meet the regulatory requirements of SOPA (Australia) and CCA (New Zealand) with built-in reminders, approval workflows, audit trails, and subcontractor document compliance.

4 Reducing Financial Risk

Enhance margin protection with robust management of retention and variations, eliminating costly disputes and project delays.

5 Improving Collaboration & Relationships

Standardised claims and real-time status visibility foster better understanding between builders and subcontractors.

6 Reducing Project Risks

Timely reviews and approvals of progress claims mitigate the risk of work disruptions and missed delivery deadlines.

Trust our award-winning solution

"As a business we had underestimated how long it took teams to reconcile claims to the previous month's accounts. It is no longer an issue at all with Payapps - it is just correct, the way it should be."

Carlos Gonzalez
State Commercial Manager, ADCO Constructions

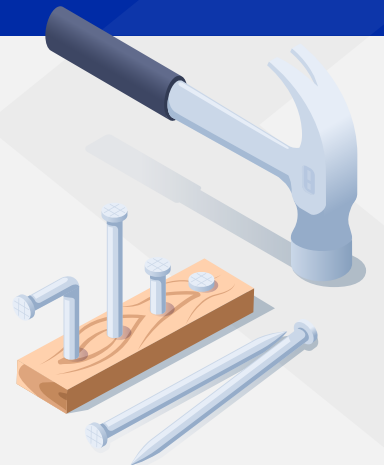

"We no longer need to check signatures on paperwork. We can see the name, date and time of who approved the claim. From an audit perspective, it is guaranteed 100% that it has been properly approved. For us, it is perfect."

Clarissa Lorenzini
Financial Accountant, Growthbuilt

Request a consultation with Payapps

Take the first step towards making progress claims easy. Reach out today to request a **complimentary consultation with Payapps**, and make 2024 a year of remarkable efficiency and success with us.
